DEPARTMENT OF MICROBIOLOGY, R.G.M.C. C.S.M.H.
COVID 19 TESTING FACILITY: C. R. Wadia Dispensary, Thane 400601
Test Report

Date & Time of receipt of specimen (dd/mm/yyyy)	06/06/2020 19:00 pm
Date and time of reporting (dd/mm/yyyy)	07/06/2020 20:27 pm
SPECIMEN DETAILS	Nasopharyngeal Swab
NAME OF QUARANTINE CENTER / HOSPITAL	CIVIL HOSPITAL THANE (MURBAD)

Sample ID	Patient Name	Age (Yrs)	Gender	Date of sample testing	SARS-CoV 2
C7183	TANAJI BHOIR	38	M	07.06.2020	Negative
C7184	SAMADHAN KOTIMBIRE	38	F	07.06.2020	Negative
C7185	DEEPAK H. HARAD	42	M	07.06.2020	Negative
C7186	DEEPAK B. JAMDAR	28	F	07.06.2020	Negative
C7187	CHETAN N. UGHADE	20	M	07.06.2020	Negative
C7188	AAKASH N. UGHADE	28	M	07.06.2020	Negative
C7189	KIRAN N. UGHADE	23	M	07.06.2020	Negative
C7190	USHA N. UGHADE	50	F	07.06.2020	Negative
C7191	RATNA N. UGHADE	55	F	07.06.2020	Negative

Note: The results relate only to the specimens tested and should be correlated with clinical findings.
Interpretation guidance:-

- Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP)/any other health care facility affirming requirements of the case definition/s.
- A positive test result is only tentative, and will be reconfirmed by retesting.
- Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease.
- The repeat specimens may be considered after a gap of 2 – 4 days after the collection of the first specimen for additional testing if required.*
- A positive alternate pathogen does not necessarily rule out either, as little is yet known about the role of coinfections.
- Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General, ICMR
