COVID 19 TESTING FACILITY: C. R. Wadia Dispensary, Thane 400601
RT-PCR Test Report

Date & Time of receipt of specimen (dd/mm/yyyy)	12/09/2020 14:45 pm
Date and time of reporting (dd/mm/yyyy)	14/09/2020 18:03 pm
SPECIMEN DETAILS	Nasopharyngeal Swab
NAME OF QUARANTINE CENTER / HOSPITAL	KAUSA STADIUM QUARANTINE CENTER

Sample ID	Patient Name	Age (Yrs)	Gender	Date of sample testing	SARS-CoV 2
C29302	VAISHALI VILAS SURYAWANSHI	38	F	14.09.2020	Negative
C29301	VILAS SURYWANSHI	50	M	14.09.2020	Negative
C29300	SAMIR KASHIRAM KADAM	30	M	14.09.2020	Negative
C29299	PINTU KUMAR	24	M	14.09.2020	Negative
C29298	ISHRAT BEGUM SHAMAUDDIN SHARFANI	60	F	14.09.2020	Negative
C29297	RAHUL SURESH SHEDGE	24	M	14.09.2020	Negative
C29296	DATTATRAY TUKARAM SHIRKE	76	M	14.09.2020	Negative
C29295	DEEPAK DATTATRAY JADHAV	49	M	14.09.2020	Negative

Note: The results relate only to the specimens tested and should be correlated with clinical findings.
Interpretation guidance:-

- Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP)/any other health care facility affirming requirements of the case definition/s.
- A positive test result is only tentative, and will be reconfirmed by retesting.
- Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease.
- The repeat specimens may be considered after a gap of 2 – 4 days after the collection of the first specimen for additional testing if required.*
- A positive alternate pathogen does not necessarily rule out either, as little is yet known about the role of coinfections.
- Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General, ICMR
