

NATIONAL COVID-19 LABORATORY
DEPARTMENT OF MICROBIOLOGY, R.G.M.C. C.S.M.H.
COVID 19 TESTING FACILITY: C. R. Wadia Dispensary, Thane 400601
Test Report

Date & Time of receipt of specimen (dd/mm/yyyy)	01/07/2020 16:30 pm
Date and time of reporting (dd/mm/yyyy)	03/07/2020 15:04 pm
SPECIMEN DETAILS	Nasopharyngeal Swab
NAME OF QUARANTINE CENTER / HOSPITAL	KASARVADAVALI

Sample ID	Patient Name	Age (Yrs)	Gender	Date of sample testing	SARS-CoV 2
C12248	EMAMUDDIN AHMED	34	M	03.07.2020	Negative
C12249	RAKESH VANSHRAJ YADAV	57	M	03.07.2020	Negative
C12251	VAIBHAV O. BHAWDE	33	M	03.07.2020	Negative
C12247	FURKHAN HUSSAIL MALIK	27	M	03.07.2020	Negative
C12246	FARHAN MALIK	29	M	03.07.2020	Negative
C12245	AKILA ABBASALI SADARIWALA	28	F	03.07.2020	Negative
C12244	ABBASALI SADARIWALA	28	M	03.07.2020	Negative
C12243	BURHANUDDIN HUSSAIN	53	M	03.07.2020	Negative
C12250	SHAH NAWAZ KHAN	22	M	03.07.2020	Negative

Note: The results relate only to the specimens tested and should be correlated with clinical findings.
Interpretation guidance:-

- Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP)/any other health care facility affirming requirements of the case definition/s.
- A positive test result is only tentative, and will be reconfirmed by retesting.
- Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease.
- The repeat specimens may be considered after a gap of 2 – 4 days after the collection of the first specimen for additional testing if required.*
- A positive alternate pathogen does not necessarily rule out either, as little is yet known about the role of coinfections.
- Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General, ICMR
