

## NATIONAL COVID-19 LABORATORY DEPARTMENT OF MICROBIOLOGY, R.G.M.C. C.S.M.H.

## COVID 19 TESTING FACILITY: C. R. Wadia Dispensary, Thane 400601

## **Test Report**

Date & Time of receipt of specimen (dd/mm/yyyy)	03/08/2020 15:00 pm	
Date and time of reporting (dd/mm/yyyy)	04/08/2020 13:02 pm	
SPECIMEN DETAILS	Nasopharyngeal Swab	
NAME OF QUARANTINE CENTER / HOSPITAL	CSMH IPD	

Sample ID	Patient Name	Age (Yrs)	Gender	Date of sample testing	SARS-CoV 2
C19857	GOPINATH TARE 573	34	М	04.08.2020	Positive
C19856	BABARAM PANDURANG WARGHADE 572	62	М	04.08.2020	Negative
C19855	SALIM YUNUS KHATRI 18506	62	М	04.08.2020	Negative
C19854	PRAKASH MARUTI CHAVHAN 568	54	М	04.08.2020	Negative
C19853	VIJAY ROY 569	50	М	04.08.2020	Negative
C19852	ATMARAM SHRIPATI SAWANT 564	42	М	04.08.2020	Positive
C19851	JYPOTI SALVADOR 565	48	F	04.08.2020	Negative
C19850	BHARTI JAYESH SHRIPAD 18368	20	F	04.08.2020	Negative

Note: The results relate only to the specimens tested and should be correlated with clinical findings. Interpretation guidance:-

- Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP)/any other health care facility affirming requirements of the case definition/s.
- A positive test result is only tentative, and will be reconfirmed by retesting.
- Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease.
- The repeat specimens may be considered after a a gap of 2 4 days after the collection of the first specimen foradditional
  testing if required.\*
- A positive alternate pathogen does not necessarily ruleout either, as little is yet known about the role ofcoinfections.
- Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General,ICMR
