NATIONAL COVID-19 LABORATORY

DEPARTMENT OF MICROBIOLOGY, R.G.M.C. C.S.M.H.

COVID 19 TESTING FACILITY: C. R. Wadia Dispensary, Thane 400601

Test Report

Date & Time of receipt of specimen (dd/mm/yyyy)	**27/06/2020 12:40 pm**
Date and time of reporting (dd/mm/yyyy)	**28/06/2020 16:23 pm**
SPECIMEN DETAILS	**Nasopharyngeal Swab**
NAME OF QUARANTINE CENTER / HOSPITAL	**CSMH IPD**

Sample ID	Patient Name	Age (Yrs)	Gender	Date of sample testing	SARS-CoV 2
C11009	TARANNUM BANO	45	F	28.06.2020	Negative
C11010	KUSUM ANGRE	53	F	28.06.2020	Negative
C11011	BHALCHANDRA GAIKWAD 277	71	M	28.06.2020	**Positive**
C11012	RATILAL ABBA TONDSE 16288	64	M	28.06.2020	Negative
C11013	DYANDEV VITTHAL VANJARI 16108	65	M	28.06.2020	**Positive**
C11018	SAROJ AROKIADAS 275	45	F	28.06.2020	**Positive**
C11019	AJIMUNNISA ANSARI 274	65	F	28.06.2020	**Positive**
C11020	NANDESH MORE 273	42	M	28.06.2020	Negative

Note: The results relate only to the specimens tested and should be correlated with clinical findings.
Interpretation guidance:-

- *Testing of referred clinical specimens was considered on the basis of request / referral received from / through State Surveillance Officer (SSO) of concerned State Integrated Disease Surveillance Programme (IDSP)/any other health care facility affirming requirements of the case definition/s.*
- *A positive test result is only tentative, and will be reconfirmed by retesting.*
- *Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease.*
- *The repeat specimens may be considered after a a gap of 2 – 4 days after the collection of the first specimen foradditional testing if required.**
- *A positive alternate pathogen does not necessarily ruleout either, as little is yet known about the role ofcoinfections.*
- *Please note that these results are not to be used for any thesis or presentations or for Publication in any Journal without the prior permission of the Director General,ICMR*
